

Barstow Unified School District

Barstow Unified School District remains focused on preparing all students for bright and successful futures. As such, Barstow High School currently offers CTE pathways in ten industry sectors.

advance their future opportunities as an asset to local industry partners.

Our teachers are passionate about student learning and introducing students to the wide variety of opportunities within the Barstow region, the High Desert at large, and beyond.

Student learning is tailored around hands-on, project-based experiences on industry-standard equipment taught by professionals from industry. Leadership, soft skills, and technology skills are embedded in all pathways. Students in pathways gain exposure to industry-based events, competitions, guest speakers, internships, and more.

HIGHLIGHTS

The Barstow area has a number of generous industry and community members who contribute to our summer internship program. Students in their junior year can apply for various paid internships at our local industries.

Our goal for CTE is to partner with our industry experts to enhance and improve our programs so that graduates enter postsecondary education and the workforce with the technical knowledge and skills needed to

CTE students can receive college credit for many CTE courses that are articulated with Barstow Community College or Victorvalley Community College.
