Silver Valley Unified School District

Silver Valley Unified School District has a long history of preparing students for careers in the automotive repair industry. Based on area needs, the district focuses their efforts and resources in the Systems Diagnostics and Service/Repair area of the Transportation Sector.

Course offerings include the CTE sequenced courses of Auto I and Auto II. Advanced students are also able to take Auto III. The auto classes are offered to all students at Silver Valley High School.

For the 2019-2020 school year, the district plans to add a Virtual Welding course to help prepare students for the welding program at local community colleges. Silver Valley has also partnered with employers in the area offering interested and qualified students hands-on opportunities for industry specific training and job placement.

HIGHLIGHTS

CTE students can receive college credit for articulated courses.

Many local employers work with Silver Valley to hire current students and graduates.

Silver Valley USD has strong connections with Fort Irwin and the Marine Corps Logistics Base - Barstow.

Many students earn Food Handlers Cards through courses offered in Silver Valley USD.
